

# BioGaia and Recordati strengthen their partnership in Spain and Portugal

BioGaia AB has signed a new long-term exclusive distribution agreement with Recordati for Spain and Portugal, building on the companies' existing collaboration in the Iberian market and partnership in Italy. The agreement covers the distribution of BioGaia's products in Spain through Casen Recordati and in Portugal through Jaba Recordati.

Spain and Portugal represent important markets for BioGaia, with growing consumer awareness of probiotics and increasing demand for scientifically documented health solutions.

"We are very pleased to continue and expand our partnership with Recordati. Through this agreement, we will continue to develop BioGaia's business in Spain and Portugal and broaden access to our probiotic portfolio across both markets," says Theresa Agnew, President and CEO of BioGaia.

The agreement supports the continued development of BioGaia's probiotic business in Spain and Portugal and provides a platform for future portfolio expansion in both markets.
